

Please complete, sign and date the form below. On the attached sheet provide the name(s) and complete mailing address for all the contiguous property owners and elected officials notified. Additional sheets are attached, if needed. All are to be returned to: Maryland Department of the Environment, Water Supply Program, Attn: Norman Lazarus, 1800 Washington Boulevard, Baltimore Maryland 21230.

Retain the return receipts from certified mail for your records

CERTIFICATION OF NOTIFICATION

I hereby certify that I have properly notified the owners of contiguous properties, either in person or by certified mail, and by certified mail to the County Executive and/or the presiding officer of the County Commission/Council of the county in which the appropriation is proposed, and analogous town or municipal officials of any town or municipality which may be affected by Permit MO2016G004/01, which seeks to appropriate and use an annual average of 30,000 gallons of groundwater per day (gpd) and 40,000 gpd during the month of maximum use for lowering the groundwater level to facilitate construction of the Bethesda Shaft of the purple line. The water is to be withdrawn from one well in the Lower Pelitic Schist of the Wissahickon Formation. The project is located at Elm Street between Wisconsin Avenue and East Lane, Bethesda, Montgomery County, Maryland.

The name(s) and complete address of all parties notified are shown on the attached sheet(s). If delivery was not made to certain parties, the reason(s) for non-delivery has been stated.
